approach

Indiefarm
Agro Solution

Commitment
to quality

Growth
through
innovation
& service

We're constantly expanding our warehouse and logistics infrastructure across India to better support our partners, As we evolve with the industry, we remain committed to being your trusted sourcing partner from raw material to market success.

BLOOM UP

COMPOSITION :

Amino Acid - 22.00%
 Saccharides - 01.50%
 Vitamin (B1,B2,B6,B12) - 04.00%
 Folic Acid - 00.30%
 Dissolving Agent - 72.20%

Available In : 100 ml & 250 ml

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

• BENEFITS OF USING BLOOM UP :

- **BLOOM UP** Enhances grape bunch formation, size, and uniformity, promotes balanced growth, stimulates flowering and fruit set, boosts nutrient uptake, increases grape sugar content, and strengthens vine growth.
- **BLOOM UP** support healthy plant growth and can contribute to sustainable viticulture.
- **DOSAGE** : 2 ml to 3 ml per litre by spray. An example application schedule includes sprays at the 3-4 leaf stage, pre-bloom, and after berry set. Bunch Dipping (Optional).
- An example dipping schedule for Thompson Seedless grapes includes dips at berry sizes of 3-4 mm and 6-7 mm diameter.

ELONGRA

COMPOSITION :

L-Free Amino Acids - 15.00% w/v
 Auxine - 00.30% w/v
 PGP Powder - 02.50% w/v
 Vitamin B12 - 00.50% w/v
 Stabilizer - 01.00% w/v
 Sea Weed Extract - 13.00% w/v
 Solvents - 05.00% w/v
 Filler & Carrier Aqua - 62.70% w/v

Available In : 250 ml & 500 ml

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

• BENEFITS OF USING ELONGRA :

- **ELONGRA** is a unique blend of elongation hormones specifically designed for use in grape cultivation.
- Benefits for Grapes: **ELONGRA** is used to improve the length, size, color, and weight of grape bunches and berries.
- **ELONGRA** is particularly beneficial for Sonaka and other elongated grape varieties.
- Additional Benefits: **ELONGRA** is also useful to enhance the shelf life of harvested grapes and is suitable for exportable fruits and vegetables as it is a 100% residue-free product.
- **DOSAGE** : 1 ml per litre by spray. 500 ml per acre for spray.

QUICK LIME

COMPOSITION :

Calcium Form - Calcium Glycine
 Form - Liquid Molecular
 Weight - 188.20 g/mol
 Molecular Formula - C4H8CaN2O4
 Solubility - Completely Water Soluble
 Calcium - 6-10% Min.
 Total Glycine - 30% Min.
 Moisture - 5% Max.

Available In : 1 Litre & 5 Litre

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

• BENEFITS OF USING QUICK LIME :

- **QUICK LIME** Improves structural integrity.
- **QUICK LIME** Enhances resistance to environmental stress, pests, and diseases.
- **QUICK LIME** Increases flowering and improves fruit setting.
- **QUICK LIME** Boosts fruit quality (Size, Storage, Shelf life).
- **QUICK LIME** Enhances nutrient uptake and utilization.
- **QUICK LIME** Activates enzymes for growth and metabolism.
- **DOSAGE** : 2 ml to 3 ml per litre by spray.

ZEPTA

COMPOSITION :

Nutrients	Wt./Wt.	Wt./Vol.
Zinc as Zn	12.00%	26.00%
pH (1% Solution)	4.0 to 5.5	4.0 to 5.5
Specific Gravity	1.21 to 1.28	1.21 to 1.28

Available In : 250 ml & 500 ml

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

• BENEFITS OF USING ZEPTA :

- **ZEPTA** is an essential micronutrient for healthy plant growth and development, playing a crucial role in enzyme activation, protein synthesis, and hormone regulation.
- **ZEPTA** is chelated form of zinc, bound to the amino acid glycine, ensures rapid and efficient absorption by plants, even in challenging soil conditions.
- **ZEPTA** helps prevent and correct zinc deficiencies, which can significantly impact crop yield and quality.
- **ZEPTA** enhance cell division and also helps in berry elongation.
- **DOSAGE** : 0.5 ml to 1 ml per litre by spray.

EXPERT-DF

COMPOSITION :

Fe	Mn	Zn	Cu	Mo	B
2.5%	1.0%	3.0%	1.0%	0.1%	0.5%

Available In : 1 Litre, 2.5 Litre, 5 Litre

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

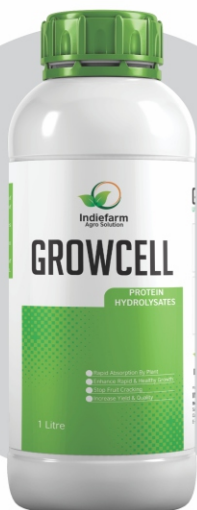

• BENEFITS OF USING EXPERT-DF :

- **EXPERT-DF** contains essential micro-nutrients like iron, manganese, zinc, copper, boron, and molybdenum, crucial for plant health and development. Some formulations, like Grade-II, have a high percentage of Zinc.
- **EXPERT-DF** aids in increasing fruit size, weight, and keeping quality, prevents flower and fruit dropping, and improves the efficient utilization of NPK fertilizers.
- **EXPERT-DF** helps overcome deficiencies of essential micro-elements in crops, promoting rapid and healthy growth, and enhancing resistance to pests and diseases.
- **DOSAGE** : 1 ml to 2 ml per litre by spray. 2.5 litre/acre by drip.

GROWCELL

COMPOSITION :

Protein hydrolysates	: 62.5%
Q.S.	: 27.5%
TOTAL	: 100%

Available In : 500 ml & 1 Litre

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

• BENEFITS OF USING GROWCELL :

- **GROW CELL** is concentrated form of hydrolyzed protein isolate consisting of peptides oligo peptides.
- **GROW CELL** is naturally absorbed by leaves and roots.
- **GROW CELL** provides an excellent boost to vegetative as well as reproductive growth.
- **GROW CELL** is recommended in all types of crops like Vegetable, Cash crop and Fruit crop.
- **DOSAGE** : For foliar application : 1 ml per litre of water in flowering stage. 2 ml per litre of water in Veraison stage. For drip application 1 litre per acre.

Available In : 500 ml & 1 Litre

FLORA

COMPOSITION :

Saccharides - 30.00%, Vitamins (B1, B2,B6) - 20.00%,
Amino acids - 15.00%, L-cystin - 10.00%,
Humic acid - 10.00%, Fulvic acid - 15.00%

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

BENEFITS OF USING FLORA :

- **FLORA** is essential for overall plant growth and are often found in flowering products. They include nitrogen (N), phosphorus (P), and potassium (K), often referred to as the NPK ratio.
- **FLORA** is naturally occurring or synthetic substances that influence plant development, including flowering. Examples include auxins, gibberellins, and cytokinins.
- **FLORA** contains a blend of flowering hormones and other ingredients to promote quicker and more abundant blooms.
- **FLORA** builds blocks for proteins and can be beneficial for plant growth and stress resistance.
- **DOSAGE** : 1 ml to 1.5 ml per litre by spray.

Available In : 500 ml & 1 Litre

FRUCTOSE

COMPOSITION :

Amino acid and Peptide Mixture	: 54.00%
Inorganic fraction and Aqua	: 46.00%
TOTAL	: 100%

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

BENEFITS OF USING FRUCTOSE :

- **FRUCTOSE** often work by stimulating the production of pigments like anthocyanins and carotenoids, which are responsible for colour. They can also improve other aspects of plant growth, such as fruit size, sugar content, and stress tolerance.
- **FRUCTOSE** helps plants produce more vibrant and intense fruit colours, making them more attractive and visually appealing.
- **FRUCTOSE** improve overall plant health and nutrient uptake and also can lead to increased yields of flowers, fruits, and vegetables.
- **DOSAGE** : 1 ml to 2 ml per litre by spray.

Available In : 500 ml & 1 Litre

MEALY HUNT

COMPOSITION :

Ginger Extract	: 02.00%
Plant Extract	: 10.00%
Non Ionic Surfactant	: 10.00%
Filler oil and Extract	: Q.S.
TOTAL	: 100%

- Rapid Absorption By Plant
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

BENEFITS OF USING MEALY HUNT:

- **MEALY HUNT** is prepared by naturally occurring medical plant oil and extract.
- **MEALY HUNT** is a 100% eco-friendly organic product. It can be used up to harvesting.
- **MEALY HUNTS** primary work is on the white protective layer of mealybug.
- **MEALY HUNT** is used to control white flies and can control red mites at the flowering stage.
- **DOSAGE** : 2 ml to 3 ml per litre by spray.

SIZE - ON

Available In : 250 gm, 500 gm

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

- **BENEFITS OF USING SIZE-ON :**
- **SIZE-ON** helps to stop dropping fruit and flowers.
- **SIZE-ON** helps in increasing fruit size, uniform size, colour, and shining of fruit.
- **SIZE-ON** helps in increasing pulp and minimizing mummification in grapes and fruits.
- **SIZE-ON** helps the plant to stress out.
- **SIZE-ON** has protein; it is an instant energy source.
- In grape ponga stage, spray **SIZE-ON** bunch becomes strong and healthy.
-
- **DOSAGE :** 1-2gm/liter or 500gm/per acre.

AMINO EDGE

Available In : 500 gm & 1 Kg

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

- **BENEFITS OF USING AMINO EDGE :**
- **AMINO EDGE** is a fish protein powder that can be used in agriculture as a plant bio stimulant to help plants grow, develop, and produce a better yield.
- **AMINO EDGE** enhances plant growth by providing a rich source of nutrients like Nitrogen, Phosphorus, Potassium, and Micronutrients.
- **AMINO EDGE** is 100% organic fertilizer that contains 96.5% protein and 40% amino acids.
- **AMINO EDGE** high content enzyme beneficial micro organism and macro and micro nutrients.
- **AMINO EDGE** increases chlorophyll in plants flower and fruit set in plant & also helps in high yield.
-
- **DOSAGE :** **Spray :** 0.5-1 gm/per litre water. **Drip :** 500gm/per acre.

DI-MAX

Available In : 500 gm & 1 Kg

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

- **BENEFITS OF USING DI-MAX :**
- **DI-MAX** contains potassium obtained from rhodophytes which is useful to increase the sugar level in fruits at the pre-harvest stage.
- **DI-MAX** helps plants to overcome potassium deficiencies.
- **DI-MAX** can improve the size, shape, and colour of plants, flowers, and fruits, leading to higher quality produce.
- **DI-MAX** helps to increase the luster of fruits and plants.
-
- **DOSAGE :** **Spray :** 2 gm/liter or 1 Kg/per acre.

Available In : 2.5 Litre & 5 Litre

PLANT FEED

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

- **Benefits of using PLANT FEED :**
- **PLANT FEED** Contains Seaweed, Humic acid, Fulvic acid, Folic acid and Vitamins.
- **PLANT FEED** helps in increase of soil health.
- **PLANT FEED** changes C:N ratio in soil and increase microbial activities in soil.
- **PLANT FEED** helps in chelating the nutrients and increase efficiency of nutrients.
- **PLANT FEED** helps PGRs management. (Cytokinin, Gibberlins, Auxins etc.)
- **PLANT FEED** helps in to Recover and Renovate alkaline and Problametic soil.
- **DOSAGE** : 5 liter per acre by drip irrigation.

COMPOSITION :

Seaweed	: 28.00%
Humic Acid	: 02.00%
Fulvic Acid	: 03.00%
Vitamins and Amino Acids	: 05.00%
Aquabase Solvent	: Q.S.
TOTAL	: 100%

Available In : 1 Litre

KAPASO

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

- **BENEFITS OF USING KAPASO :**
- **KAPASO** increases size of fruit, shining of fruit and luster of fruit.
- **KAPASO** improves quality and quantity of yield.
- **KAPASO** increases uptake of inorganic constituents from the soil.
- **KAPASO** increases nutrient uptake and protein content in crop.
- Auxins in **KAPASO** induces both growth of pre-existing roots and adventitious root formation and branching of the roots.
- **KAPASO** is suitable for pre and post transplanting of plants, stimulation root growth for recovery from transplanting shock.
- **DOSAGE** : For foliar application : 2 ml per litre of water in flowering stage.
- For drip application : 1 litre per acre.

Kappaphycus alvarezii 24% (Liquid)

COMPOSITION :

Total carbohydrate per cent. By weight, minimum	: 7.5%
D-Galactose-4-O-Sulphate per cent. By weight, minimum	: 6%
pH (minimum) (1:2 aqueous solution)	: 3-5%
TOTAL	: 100%

Available In : 1 Litre

PICK N UP

- Rapid Absorption By Plant
- Stop Fruit Cracking
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

- **BENEFITS OF USING PICK N UP :**
- **PICK N UP** contains Nitrogen which is in nitrate form, which plants can absorb instantly, providing a quick "green-up" even in cold or wet weather.
- Cell Wall Strength: **PICK N UP** contains calcium which strengthens plant cell walls, leading to sturdier stems and better resistance to pests and diseases.
- Photosynthesis Boost: **PICK N UP** contains magnesium which is the central atom of the chlorophyll molecule; adding it ensures the plant can efficiently process sunlight into energy.
- Nitrogen is arguably the most critical nutrient in agriculture because it is a primary component of chlorophyll, the compound plants use to convert sunlight into food via photosynthesis.
- Promotes Growth: **PICK N UP** is the "fuel" for vegetative growth, responsible for the lush green colour and the rapid development of stems and leaves.
- For foliar application : 2 to 3 ml per litre of water in flowering stage.

COMPOSITION :

Calcium Nitrate Fortified with Magnesium (suspension)	
i) Total nitrogen, per cent by weight, minimum	10.0
ii) Nitrate Nitrogen, per cent by weight, minimum	8.5
iii) Water Soluble calcium as CaO, per cent by weight, minimum	15.0
iv) Water soluble magnesium as MgO, per cent by weight, minimum	2.0
v) Total chloride as Cl per cent by weight, maximum	2.5
vi) pH (1% Solution) at 20°C	7.0 - 9.0

FERRON

COMPOSITION :

Proline	: 1.00%
Water	: Q.S.
TOTAL	: 100%

Available In : 1 Litre

- Rapid Absorption By Plant
- Enhance Rapid & Healthy Growth
- Increase Yield & Quality

• BENEFITS OF USING FERRON :

- Sufficient iron is essential in leaves for the process of photosynthesis.
- Factors like lime-rich soil and constant moisture lead to iron deficiency in crops. Because of this, crop leaves turn yellow, and growth stops or slows down.
- At the same time, the thickness of the leaves decreases. As leaves become thin, the possibility of damage during spraying increases.
- In all these conditions, using **FERRON** makes iron available to crops at a fast rate, and the iron deficiency is quickly resolved.
- Leaves get a good dark green colour, leaf thickness increases, growth improves, the rate of photosynthesis increases, and there is an overall increase in crop yield.
- For foliar application : 1 to 2 ml per litre of water in flowering stage.
- For drip application : 2.5 litre per acre.

Available In : 1 Litre

COMPOSITION :

Calcium Di hydrogen Phosphate (liquid)

i) Available Phosphorus (as P2O5) per cent.	
by weight, minimum	22.0
ii) pH	1.1+/-1
iii) Sp gravity (Kg/l)	1.25-1.35

• BENEFITS OF USING BUDEX :

- **BUDEX** is essential for successful conception (fruit bud differentiation) and healthy embryo development in fruit crops.
- **BUDEX** ensures that the fruit crops receive the necessary nutrients required for this conception process.
- **BUDEX** improves nitrogen digestion, which increases reserved food storage.
- **BUDEX** makes the fruit crops more robust and capable.
- **BUDEX** increases the rate of photosynthesis and maintains stable cytokinin levels within the fruit crops.
- **For foliar application** : 1.5 to 2 ml per litre of water in flowering stage.

Available In : 1 Litre

MATURIX

COMPOSITION :

Potassium Acetate

i) Water soluble Potassium (as K2O) per cent. by weight, minimum	14.0
ii) pH	6.0-8.0
iii) Density gm/ml	1.25-1.35
iv) Lead as (Pb) per cent. by weight, maximum	0.003
v) Arsenic (as As) per cent. by weight, maximum	0.01
vi) Cadmium (as Cd) per cent. by weight, maximum	0.0025

- Uniform Bud Formation
- Enhance Rapid & Healthy Growth
- Increase Cytokinin Level
- Rapid Absorption By Plant

• BENEFITS OF USING MATURIX :

- **MATURIX** contains nutrients required for fruit setting which are easily available to the fruit crops.
- **MATURIX** increases RNA, DNA levels and also increase metabolic activity.
- **MATURIX** controls the growth of shoots/tips.
- **MATURIX** helps to become leaves darker and thicker.
- **MATURIX** increases photosynthesis, leading to increased robustness and nitrogen digestion.
- **For foliar application** : 2 to 3 ml per litre.

SOIL HEALTH

AGRICULTURE IS OUR CULTURE !

ABOUT US

Formerly known as Indiefarm Agro Solution, a name that better reflects our focus, commitment, and vision for the agrochemical industry.

With over many years of dedicated experience, Indiefarm Agro Solution stands as a trusted partner, providing high-quality products all over India.

Our journey began with the goal of creating a reliable supply chain for the agro-input industry. Today, we specialize in end-to-end sourcing and distribution of products-from organic fertilizers, agrochemicals to specialty plant nutrients, enabling our clients to strengthen their product portfolios and scale their businesses with confidence.

At Indiefarm Agro Solution, our mission is to empower our farmets by enabling superior product quality, reliable supply, and we're constantly expanding our dealers and retailers across india to better support their needs.
